

Dear Teachers and Leaders,

Thank you for choosing Hickory Nut Gap Farm as a field trip destination. We provide a fun and educational experience for all ages. In addition to the guided tour, your group is invited to stay and play on our Tunnel Slides, Spiderweb Climb, Tricycles, Hay Pile, Corn Maze and Picnic at our Party Shed.

What to Expect

We offer a fun and educational on farm experience for all ages. We cater the experience to engage students in age appropriate topics. They will learn about the farm history, our current farming activities and practices, sample apples, learn about pollination and view our animals. Tour highlights include our calves, chicks, pigs and goats, and apple orchard. Each child will be given a bag with one apple and a post card as a gift.

What to Bring

To make the most of your visit, we suggest having the following items

- Sunscreen
- Water bottles
- Comfortable shoes and weather appropriate clothing for the days forecast
- Bagged Lunches
- Any necessary allergy medication for bees or animals
- Field trip admission fee
- Hand sanitizer

Guidelines

- Please be respectful around our animals. Your tour guide will provide great information and rules regarding what is allowed when interacting with the animals.
- We ask that children be supervised at all times and that children stay with their designated chaperone. For field trips we require that there be one Chaperone per 10 kids.
- Both bus and vehicle parking will be in the lower lot
- Please pay for your tour upon arrival
